

PEDAGOGICAL STRATEGIES: GRADUAL RELEASE ALIGNMENT

A strategic partnership with CT3 leads to transformative results. The No-Nonsense Nurturer® Foundations Suite provides the strategic framework, and Real Time Teacher Coaching® supports school leaders and teachers at every step.

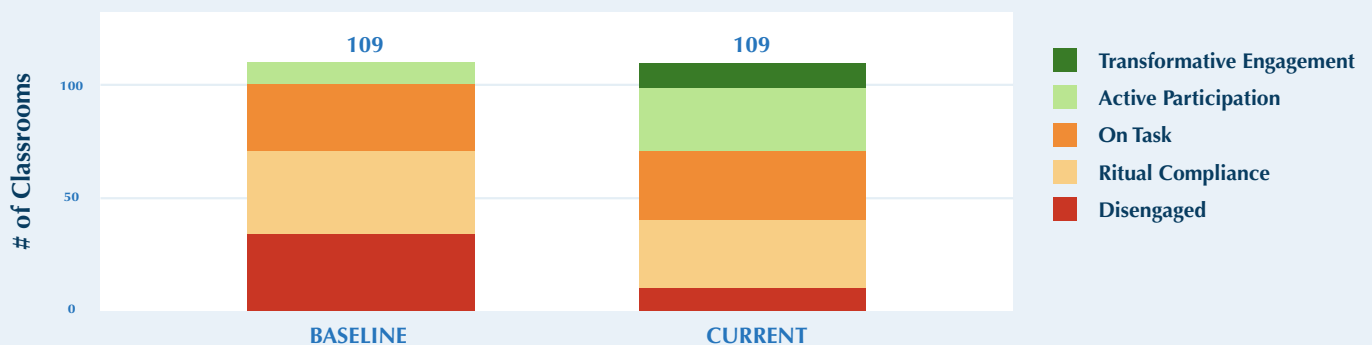

The pedagogical strategies on the reverse side of this sheet have been designed to incorporate all aspects of the Gradual Release of Responsibility Model, and are organized into intentionally structured suites that build off of each other. As teachers become proficient in these initial strategies, they are better able to layer in additional strategies, creating a transformational, engaged learning environment where all students thrive.
